Email Profit System

WELCOME LETTER

Hello Friend!

Welcome to the Email Profit System!

This course is designed to give you everything you need to get started, as well as give you the opportunity to turn this into a million-dollar empire.

We've spent a great deal of time and study documenting our entire business model; a model that has taken us about a decade to perfect.

This is one of the most complete courses that we've put together so there are a few things you should know before starting.

First, the course is broken down into six weekly modules.

If you are new to this type of work, take your time with the course materials, working through each week at a steady pace.

This is not a race! You want to absorb what you learn, and racing doesn't help, in fact, it hurts you.

Slow it down – take notes, and study each module carefully…

Second, we've included 8 bonuses that are designed to do some of the work for you and give you the best possible chance for success.

Go through them <u>after</u> you have completed the 6 weeks of training.

Lastly, we are here to help you.
